

National Forage Variety Trials **(NFVT)**

Data summary: **Cocksfoot 1991-2003**

This report summarises dry matter yield data from nine replicated trials conducted in Canterbury.

Background

The New Zealand National Forage Variety Trial (NFVT) system was set up by the New Zealand Plant Breeding and Research Association Inc. (NZPBRA), a society established to promote plant breeding and research in New Zealand.

Trials commenced in 1991 in co-operation with AgResearch Grasslands, co-ordinated by NZPBRA.

New Zealand Plant Breeding and Research Association accept no responsibility for the use of these results.

Furthermore the results have been prepared at the request of, and for the purposes of, individual participating companies only and the New Zealand Plant Breeding & Research Association Inc. accepts no responsibility on any grounds whatsoever, including liability or negligence, to any other person.

The results are subject to copyright:
